Site location
Latitude: 9.332° Longitude: 29.918°
Site area: 1,646,612m²

Site demographics

**Population Heat Map as of March 2018

*Biometrically registered population: cumulative number of individuals registered biometrically in the PoC.

**Population count: estimates the number of individuals residing in the PoC by taking into account the number of people who stay overnight in each shelter during a 3 day exercise conducted twice a month.

The population count is the estimated camp population for which the standard indicators are calculated.
