SITE UPDATES

National CCCM Cluster

CCCM Cluster developed the Camp Management Operational Guidance to highlight COVID-19 specific considerations in relation to PoCs and displacement sites within South Sudan with active Camp Management services and support the CCCM partners in adjusting their activities in order to respond the COVID-19 situation. In addition, the Cluster drafted key messages to be disseminated by the CCCM partners in the PoCs regarding the risks of transmission of COVID-19 due to congestion and the available options for IDPs who either decide to stay or leave the site.

Bentiu PoC 117,767* ↑ **Rubkona/Bentiu Collective Sites** 2,273 ↑

PoC:

- Camp management conducted a two-day capacity building training to 26 members (18 male and 8 female) of the Sector committees, inter-churches committee (ICC), and traders' union. The topics covered included; roles & responsibilities of camp management, community participation, leadership, women inclusion, PSEA, fire safety and sectors and blocks ToR review for sector and block leadership.
- Camp management organized a fire safety training in all 5 sectors of the PoC for 1,608 individuals (767 females and 841 males).
- The CCCM cluster in collaboration with World Health Organization (WHO) took the lead on drafting a COVID-19 contingency plan for Bentiu PoC site with the participation of the rest of the clusters. CCCM Cluster also participated in the COVID-19 contingency plan for Unity state which was led by the State Ministry of Health and WHO.

Beyond Bentiu Response:

- DRC Roving team conducted a leadership training for 20 participants (12 females and 8 males) mostly community leaders in Pakur Payam, Rubkona county.
- DRC Roving team trained 15 community leaders (10 males and 5 females) in Kuach Payam, Guit county.

Bor PoC

Bor PoC 1,921 ↓

- Camp management together with the CCCM State Focal Point (SFP) and in collaboration with all service providers in the PoC started the draft of the COVID-19 contingency plan. The contingency plan has not been completed yet due to the lack of the health part of site.

Juba PoC

PoC1&3 29,659 ↓

- Camp management in collaboration with UNMISS and service providers in the PoC drafted a COVID-19 contingency plan to be able to respond to any situation of COVID-19 outbreak in South Sudan and when there is confirmed case in the PoC. The plan also addresses what partners need to preposition at the preparedness stage and what they do in the worst case scenario.

Aburoc

Aburoc Informal Settlements 8,137 ⇄

- Camp management shared the results of a rapid intention survey conducted in Aburoc from 11-12 December 2019. The objective of the survey was to provide stakeholders an insight into residents' intentions to stay or leave Aburoc. The results of the survey indicated that 62% of the interviewed population expressed intentions to stay in Aburoc, a significant decline from the results of the preceding survey (March 2018) where a majority (90 %) of the respondents expressed their intention to stay in Aburoc.

Malakal PoC

Malakal PoC 27,928 ↑

- To enhance the capacity of community governance structures, camp management completed the rehabilitation of the PoC Community Coordination Committee office facility.

Leer TPA

1,041 ⇄

- As part of strengthening the existing community structures in Leer TPA and in informal settlements in Thaker, Adok and Torchrail, Camp management team carried out a refresher training on leadership and effective participation for women and youth groups. 18 members were trained in Leer TPA (12 females, 6 males), 21 females in Thaker, 14 females in Adok and 15 females in Torchrial.

Mobile Response

- ACTED CM Mobile Response Team conducted a joint intervention with ACTED SNFI team in Twic East, Jonglei. The intervention focused on training the community leadership structures, supporting community-led initiatives and persons with specific needs as well as engaging youth through sports activities. In addition, ACTED CM Mobile Response Team in collaboration with Health Link South Sudan (HLSS) CM Mobile Response Team conducted a joint intervention in Liel IDP site, Jonglei state. During the intervention, the ACTED team enhanced the capacity building of partners and community governance structures while HLSS focused on coordination and service monitoring activities.

- IOM CM Mobile Response Team was deployed in Pibor, Jonglei state to respond to influx of IDPs in Pibor AA site due to intercommunal conflict. The CM team provided site management support, implemented site planning activities, enhanced community mobilization and advocated for scaling up of life-saving services for the displaced population.

- DRC CM Mobile Team conducted response missions in Mayom and Nyal, Unity state. During the response the team conducted capacity building trainings for community leadership structures (community leaders, youth and women representatives), local authorities and partners operating in the areas, established community and feedback mechanisms and enhance the existing coordination structures.
