

SOUTH SUDAN

Shelter and Non-Food Items (S-NFI)

2020 | Quarter 3 Report

IOM S-NFI team distributes non-food items in Pibor, Pibor Administrative Area © IOM 2020 / Godfrey ALUMA

157,980 individuals provided with life-saving shelter and life-sustaining non-food items by S-NFI Cluster partners through coordination with all partners on ground

72,938 individuals provided with S-NFI items based on identified needs

93% of the targeted population reported that the S-NFI assistance they received responded to their main urgent needs

Distribution of Shelter and Non-Food Items

IOM continues to provide shelter and non-food (S-NFI) assistance to crisis-affected populations in Warrap, Western Bahr el Ghazal, Jonglei and Central Equatoria states, in coordination with State Focal Points (SFPs). IOM completed five assessments in flood-affected areas and conducted seven distributions. IOM S-NFI team provided in-kind S-NFI support to a total of 72,938 (34,648 male; and 38,290 female) individuals. Items were distributed to populations in Central Equatoria, Warrap and Jonglei. Beneficiaries received plastic sheets, kitchen sets, blankets, mosquito nets, rubber ropes and the IOM blue bag for the storage and movement of the items.

IOM S-NFI supported the flood-affected community in Bor by providing construction materials for dike repair such as sandbags, wooden poles and bamboos. IOM collaborated with local community-based organizations and the community to mobilize the youth and actively engage them in dike repair works to reduce

the risk of flooding in the area. Increasing levels of water and heavy rains posed a challenge in terms of access and mobilization of required materials and volunteers to carry out the civil works.

Shelter Construction and Maintenance

IOM rehabilitated 94 damaged communal shelters, benefiting 272 households (1,222 individuals - 567 male and 655 female) in Wau Protection of Civilians Adjacent Area (PoCAA) and Hai Masna Collective Centre. In total, 300 households also engaged and received cash-for-work upon completion of shelter maintenance.

The Shelter team also extended support to the Johanniter (INGO) in the rehabilitation of an isolation room in the children's Nutrition Stabilization Centre in Wau. The isolation room was rehabilitated to allow for the proper isolation of COVID-19 suspected patients.

Training of MHADM staff on EWER

IOM, in collaboration with the Ministry of Humanitarian Affairs and Disaster Management (MHADM), organized a one-day workshop for MHADM staff on Early Warning and Early Response (EWER) for 30 participants from different ministries, I/NGOs and UN agencies such as the Food and Agriculture Organization (FAO), the World Food Programme (WFP) and the United Nations Development Programme (UNDP). The aim of the workshop was to build and prepare community based early warning and response to disasters and enhance the resilience of communities, village committees and community-based disaster risk management approaches through awareness raising.

Housing, Land and Property

IOM Housing, Land and Property (HLP) static team in Wau continues to work with returnee communities through community mobilization activities, orientation sessions, and distribution of information, education, communication (IEC) materials. Due to COVID-19, IOM put the organization of large gatherings on hold and instead focused on small meetings and one-on-one interactions. So far in this reporting quarter, IOM HLP team was able to reach 4,124 households with door-to-door legal awareness and legal aid including community dispute resolution and mediation.

Currently there is an ongoing mapping of the HLP situations in 15 villages in Wau North and Wau South payams. In the next quarter, IOM plans to conduct trainings and continue with HLP awareness raising and capacity building of traditional leaders and authorities in Wau.
